Mission Statements for the Departments of Computer Science, Human Resource Development, and Technology

COMPUTER SCIENCE

The Department of Computer Science provides students with a strong foundation in the theory, practice, development, and application of computing technologies. Our undergraduate and graduate programs provide the knowledge and skills for students to become successful professionals, leaders and innovators. The department's core values include a balance between teaching and research, a commitment to the extension of knowledge, and outreach to our stakeholders in East Texas and beyond.

HUMAN RESOURCE DEVELOPMENT

Lead the HRD field through innovative scholarship, academic excellence, and professional service.

TECHNOLOGY

The Department of Technology provides its students with a comprehensive educational experience comprised of a vast array of technical skills and business knowledge deemed necessary for successful professional careers. Our high quality, accredited programs offer courses online and face-to-face, thereby enabling students the flexibility to earn a degree that fits their schedule.

Students from the programs will learn from faculty scholars who have nationally recognized expertise in various technologies and engage in research and creative activity.
