

PHAR 7295 – APPS-1
Fall 2021
Charlotte Weller, PharmD, BS
Ben & Maytee Fisch College of Pharmacy
The University of Texas at Tyler

Course Syllabus

Course Description

This laboratory course focuses on the application of skills and resources needed for pharmacists to effectively provide patient care in the outpatient setting.

Additional Course Information

This course will expand upon the foundational pharmacy patient care skills taught in the curriculum thus far at an advanced level. This course will prepare the student for experiential rotation in the outpatient setting by enhancing their skills on medication therapy management, point of care testing, patient and provider communications, prescription dispensing, and working up patients with more complex medical and personal issues. This course will also include successful completion of the ComMIT Motivational Interviewing online module series.

Course Credit

2 credit hours

Pre-Requisites

PHAR 7191 – Pharmacy Laboratory 1: Intro to Pharmacy Practice Skills (PL-1)

Co-Requisites

N/A

Class Meeting Days, Time & Location

Tuesday (Sec. 001)/Thursday (Sec. 002), 8:00 am – 12:00 pm; Room TBD (T/Th),

Course Coordinator

Charlotte Weller, PharmD, BS

W.T. Brookshire Hall 242

Phone number: 903.565.6436

Email: cweller@uttyler.edu

Office hours: Tuesday, Thursday 12:00 pm – 1:00 pm **by appointment only**

Preferred method of contact: **Email**

Fisch College of Pharmacy (FCOP) and UT Tyler Policies

This is part 1 of the syllabus. Part 2 contains UT Tyler and the FCOP course policies and procedures. These are available as a PDF at <https://www.uttyler.edu/pharmacy/academic-affairs/>. For experiential courses (i.e., IPPE and/or APPE), the Experiential Manual contains additional policies and instructions that supplement the Syllabus Part 1 and 2. Please note, the experiential manual may contain policies with different deadlines and/or instructions. The manual should be followed in these cases.

Required Materials

Most course required materials are available through the Robert R. Muntz Library. These materials are available either online* (<http://library.uttyler.edu/>) or on reserve.

1. Motivational Interviewing for Health Care Professionals online modules: ComMIT Motivational Interviewing – located on Canvas
2. Other required materials will be posted on the classes' Canvas site. The site address is: uttyler.edu/canvas.

Recommended Materials

The course recommended materials are on reserve at the Robert R. Muntz Library.

Course Format

The course may include, but are not limited to, the following activities:

1. Independent study of selected readings
2. Individual readiness assessment tests (iRATs)
3. Team-based learning, active learning strategies:
 - a. Team readiness assessment tests (tRATs)
 - b. Team application of content and concepts

Course Learning Outcomes (CLOs)

CLOs	PLO(s) Assessed for this CLO (1-15)	EPAs (1.1- 6.1)	Assessment Methods	Grading Method	PPCP Skill(s) Assessed (1-5)	ACPE Std. 11 & 12 (1-4)
1. Formulate patient and condition-specific care plans	1,2,4,6,7	1.1- 1.5	3, 4	RUB ES	1-5	N/A
2. Demonstrate effective and appropriate communication skills to patients and other healthcare workers	11	4.1	3, 4	RUB ES	4	N/A
3. Resolve dispensing-related medication errors	3	3.2, 5.2	2, 4	RUB ES	N/A	N/A
4. Display proficiency for point of care testing and MTM skills competency in real-world scenarios.	1,2,3,4,5,6 7,8,9,10,11, 13,14,15	1.1- 1.5, 3.1- 4.2	1,3,4	RUB ES	1-5	N/A

Course Assessment Methods

	Assessment Method	Description <i>Please provide a brief description of each summative assessment that you plan to use in this course to allow us to identify which ACPE standards are being assessed</i>
1	Final Exam Multiple Choice or Multiple Selection Question(s)	MCQ used on certificate training post-tests and final assessment
2	Final Exam Open Ended Question(s)	Free-response questions that may include prescription errors & omissions, calculations (wt-based dosing, day-supply, insulin, etc.), and patient scenarios
3	Comprehensive Case	Formative PPCP/MTM-based patient cases
4	Skills Assessment	Real world applications of MTM, POC, SBAR, SOAP, OTC
10	SOAP Note	Formative assignment
14	Other. Please specify:	Prescription verification, formative assignment

Grading Policy & Grade Calculation

Grades will be determined based on evaluation of individual and team readiness assessment tests (iRATs, tRATs), individual and team cumulative assessment tests (iCATs, tCATs), midterm examinations, final written examinations, skills assessments, graded application assignments, participation in team-based projects, peer evaluations and other assessment methods that may include, but not limited to, Objective Structured Clinical Examinations (OSCE). Examinations, RATs and CATs may consist of, but not limited to, multiple-choice, true/false, fill in the blank, short-answer, essay, and problem-based questions.

During the time the course is in progress, students whose cumulative course percentage falls below 70.0% *may* receive an academic alert and be subject to periodic course content review in special sessions with the course instructor(s). The student's faculty advisor may receive an academic alert to act upon on the student's behalf.

All examinations, tests, and assignments, including the final examination, may be **cumulative**. Students are responsible for material presented during the prior courses. The grading scale for all graded material is below. The final course grade will be assigned according to the calculated percentage and the percentages will not be rounded upward or downward. For additional information, see examination/assessment policy below.

Case Studies

Case Studies is a longitudinal supplement intended to reinforce and integrate concepts and skills from the P3 fall curriculum. **Content and concepts from Case Studies will be reinforce course content and aim to enhance understanding of content through critical thinking and clinical reasoning that will better prepare you for summative exams for the P3 fall courses.**

Case Studies Format

Case days may include, but are not limited to, the following activities:

1. Guided discussions
2. Individual and team active learning strategies
 - a. Individual and team case application of content and concepts
 - b. Individual and team case presentation of content and concepts

- c. Individual and team SOAP note(s)
- d. Individual and team drug information and clinical literature applications

Case Studies Expectations

Attendance and full participation are a student obligation and expectation. Each Case Studies session will be assigned to a course for 2% of the grade. At the discretion of the session’s assigned course coordinator, absences from a case session may be either approved or unapproved. Students are expected to notify the session’s assigned course coordinator *as soon as possible, and no later than 9 AM the morning of the requested absence, with supporting documentation of the absence provided within 3 days of the absence per the College of Pharmacy Policies available in Part 2 of the Syllabus.*

Case Study Schedule

Case Studies will be held over four sessions on Mondays from 9:00 AM to 12:00 PM. Although each session’s attendance deduction is assigned to a specific course, case content is not limited to that course and content from current and previous courses will be integrated into case day activities.

P3 Fall 2021 Case Study Schedule				
Session	Date	Assigned Course	Assigned Course Coordinator	Case Instructors
1	13-Sep	PHAR	All	TBD
2	4-Oct	PHAR 7295	Weller	TBD
3	25-Oct	PHAR 7585	Wallace-Gay	TBD
4	15-Nov	PHAR 7586	Parmentier	TBD

Professionalism: Professionalism will total 3% of the final lab grade. *Each week, a score of 100% may be earned or lost.* Demeanor, enthusiasm, neatness, laboratory technique, and punctuality will be evaluated. Points from score will be deducted for not wearing lab coat or for other dress code infractions, for poor demeanor/attitude in lab, or unexcused tardiness. This will be checked weekly. If the student always wears a pharmacy jacket, conducts himself/herself in a professional manner, and is on time, a score of 100% will be earned. A dress code will be enforced in this course for *physical classes*.

For each class meeting (physical or virtual) there will be either a formative assignment, a quiz, an activity, or other assignment due. Non-formative assignments will be included in your Attendance/Professionalism/Participation grade portion and are used to assess knowledge of the skill area.

Standard Grade Calculation*

Attendance/Professionalism/Participation	3%
Case Studies	2%
Formative Case Based Assignments	25%
Mid-Term	20%
Motivational Interviewing Self Study	5%
Skills Assessment	15%
Final	30%

***The final course letter grade will be determined according to the following grading scheme:**

A	90 - 100 %
B	80 - 89.999 %
C	70 - 79.999 %
D	65.0 - 69.999 %
F	< 65.0 %

PHAR 7295 Course Schedule

WEEK	DAY	TOPIC	Instructor	CLO 1	Disease States
1	T/Th (8/24 and 8/26)	Orientation; introduce motivational interviewing and discuss online platform Dispensing: Applied Community Pharmacy Encounters <i>Formative Case-Based Assessment 1: Prescription Verification</i>	CW	2,3	S20.99 S20.99
