One Thing UT Tyler Should Not Change

"I love the professors that I have had over the years here. The small classroom environment has also helped me to meet new people and learn more than I could hope for." -College of Arts and Sciences student

"I would not change the experience of being at UT Tyler. The students and staff at UT Tyler are all so friendly and helpful throughout your academic journey." -College of Education and Psychology

"The reason I decided to come to UT Tyler is because it is a beautiful campus and the classes were typically small so I was able to receive plenty of one on one time with professors, especially when I started the engineering classes..." -College of Engineering

"The professors are the absolute BEST! Hands down. They are so knowledgeable and always willing to help their students be successful in their skills and education." -College of Nursing and Health Sciences

"I have had so many great experiences here at UT Tyler but my favorite would have to be how personable the professors are and how willing to help you they are. With our student ratio being smaller than most schools it has allowed us to have a more personal relationship with our classmates and our professors." -Soules College of Business
